SKIPS WITH A COACHMAN.

Miss Van-der-Esch Marries Her Father's Coachman and Returns for Parental Blessing.

NEW YORK, Jan. 24.—A daughter of Paul Van-der-Esch, superintendent of the Astoria silk mills, eloped on Saturday with her father's coachman, Wm. Sillers. After their marriage the couple returned to Astoria. Mr. Van-der-Esch met them and invited them to his residence. Mrs. Van-der-Esch, however, refused to admit them and they went to Sillers' lodging, where they still remain. Mr. Van-der-Esch has given Siller a good position in the silk mill.

AN IRATE MEMBER!

Of the Ohio Legislature Creates a Sensation in the House Which Nearly Ends in Blows.

COLUMBUS, O., Jan. 24.—A scene took place in the house of representatives just before adjournment last evening. It seemed likely to come to a personal encounter but that was averted.

Representative Geyer wanted the floor to move to adjourn. The chair evidently desired the session to continue and refused to recognize him. Geyer grew furious and yelled, "Mr. speaker," at the top of his voice. The chair ordered the sergeant-at-arms to put him out.

This the latter attempted to do, but Geyer would not budge. A member volunteered to help Geyer, but that was unnecessary, as the little sergeant-at-arms was powerless. Members crowded around and persuaded Geyer to desist and avoid a scene.

When quiet was restored a hearty adjournment was made.

A SERIOUS ACCIDENT.

An Elevated Passenger Coach Crushed Into—One Man Killed and Several Injured.

BROOKLYN, N. Y., Jan. 24.—A serious accident occurred on the Kings County Elevated railroad at Nostrand avenue and Fulton street, this morning. A dense fog prevailed making it impossible to see more than a few feet ahead. Trains loaded with passengers going to business were following one another in quick succession.

At the point stated above a train had drawn up at the station, when the one following crushed into it, telescoping the rear car. One man, named Annison, was killed, and about a dozen are reported more or less seriously injured.

MINING TROUBLES.

The Refusal of Men to Quit Work Precipitates a Bloody Fight.

ROANOKE, Va., Jan. 24.—In the West Virginia coal regions a fight is said to have occurred yesterday morning between the Pocahontas and Elkhorm miners, in which five white men and two negroes were killed and several wounded. The conflict was brought about by the Pocahohtas miners again suspending work and encouraging othes to follow them.

SHENNADOAH, Va., Jan. 24.—Roiting has again broken out between the Hungarian and Italian laborers in the mines here and at Barrys station, two miles distant. One Hungarian was burned alive in his shanty.

Mr. Burnes is a congressman from Missouri. He was stricken with paralysis on the floor of the house yesterday.

Appropriate resolutions concerning his death were adopted in the house and senate, and pall bearers, consisting of seven from the house and three from the senate were appointed to accompany his remains to his home.

The remains of Mr. Burnes, accompanied by the congressional delegation, will leave here in a special car over the Pennsylvania railroad, at 7:43 to-night, for St. Joseph, Mo. There will be no funeral services in this city.

The convocation attracts a great many strangers to Fort Wayne and they are noted in the hotel arrivals.

A GIGANTIC SWINDLE.

Iowa Farmers Contribute Toward the Construction of a Railroad That Will Never be Built.

DES MOINES, Ia., Jan. 24,—The corps of surveyors that came into Boone with their plausible scheme for a railroad from Minneapolis to Kansas City, via Boone, are in durance vile. They had a row among themselves and one of the party exposed the scheme. The men are out on their own hook running this survey and demanding donations for locating depots. They have had a rich harvest, getting considerable money from the towns they went through and they secured some in Boone. On the information filed before Justice Frank, C. H. Evans, the leader of the party, was arrested and is now on trial for obtaining money under false pretences.

WM. O'BRIEN!

His Trial Began at Dublin To-day—The Exciting Scenes as He is Taken to the Court Room.

DUBLIN, Jan. 24.—Wm. O'Brien's trial began this morning. Twenty thousand people gathered about the court house to see him when he came. Six hundred policemen, with drawn batons, charged upon the crowd, clubbing right and left, but they were unable to disperse the throng, whose excitement reached a feverish point.

When he attempted to pass through the crowd to enter the court house, he was impeded by the press of the throng, and an inspector seized upon him and dragged him for about thirty yards.

Maddened at this sight the people pressed forward to rescue O'Brien, but were repulsed by the police, who formed around the inspector and his prisoner.

Mr. Healy had a bayonet presented at his breast, but it did not pierce his clothing. The newspaper reporters were treated with violence also. As soon as Mr. O'Brien entered the court he complained to the magistrate that the police were endeavoring to incite a bloody riot among the people.

Mr. Timothy Heely, M. P., defended Mr. O'Brien in the trial.

Messrs. Dennis Kilbride, member of parliament for Kerry, and James L. Carew, member of parliament for Kildare, have refused to answer summons for offences under the coercion act. Warrants for their arrest have been issued by a magistrate.

HOMEOPATHS WANT A CHANGE.

They Think They Can Cure Many of the Alleged Incurably Insane.

The Indianapolis *Sentinel* says:

Dr. G. W. Bowen, of Fort Wayne, is in the city with a petition having 500 signatures asking the appointment of homeopathic physicians among those at the insane asylums. Dr. Bowen, in speaking of the matter last night, said:

"The homeopathic physicians of the state only ask that they be given a chance to treat the incurable (or those so designated.) They ask this from the fact that Massachusetts and New York have seen it prudent to place two institutions of that class in the care of the homeopathic physicians with the best of results. The Middddteton asylum in New York has also been under the care of Dr. Tolcott for years, and the treatment has been exclusively homeopathic with results better than ever attained in any other institution of the kind before. They are willing to treat that class of cases and show that they are not beyond the reach of medical assistance. This school of medicine is and has been indorsed by the neighboring states of Ohio, Michigan and Illinois, and several of their public charities and institutions are so treated. Humanity demands that a chance should be given these poor unfortunate ones."

Dr. J. F. Mock, of Marion. is in the city.

Sheriff Viberg sent Mart Devany to the prison north to-day.

William Klomp and Sophie Smith have been licensed to wed.

Mrs. Susan Wilson has been accepted at the state insane asylum.

GRAND WELCOME.

That is What is in Store for the Visiting Legislators—The Banquet and Toasts.

Preparations for the reception of the legislative party Saturday evening next, are going on nicely. Mr. John G. Blake, superintendent of the school for feeble minded youth came up from Richmond to-day, and met Mayor Muhler and Mr. S. M. Foster, who have the arrangements in charge.

Mr. Blake will entertain the visitors at the Richmond asylum Saturday afternoon, and will accompany them to this city on the special train arriving here about 8 o'clock.

It is proposed that the banquet at the Wayne hotel will begin at 9 o'clock. Mr. S. M. Foster will preside at the feast, with Mayor Muhler at his right.

It is now believed that Governor Hovey, Speaker Niblack, and other distinguished gentlemen will come with the party of fifty or more senators and representatives and will be guests of the city until 10 o'clock, Monday.

The supper will be divided by toasts, responses, songs and possibly instrumental music, giving it the rarest features, and Mr. Will McKinnie will issue a bill of fare such as legislators seldom feast their eyes on.

The Business Men's exchange has issued some 200 invitations to the banquet and it is anticipated that spreads will be needed for at least that number.

The toasts of the evening are announced:

STRICTLY METROPOLITAN.

The Brunswick Hotel Lifts its Head as High as The Highest in its New Features and Arrangements.

Fort Wayne can justly be proud of her hotels and among them the Hotel Brunswick (formerly Robinson). This house is the most centrally located, being only one square from three different street railway lines, running to depots and to all parts of the city. Those who knew the Robinson would be surprised at the complete renovation and alteration the house has undergone. The entrance has been changed two doors north, and leads into a commodious and comfortable office fronting fifty feet on Harrison street, and affording a view of the entire length of Columbia street. To the left, as one enters the office, is the cheerful looking dining room. This room is well lighted, is refurnished, and the table is kept up with the very best the season and market affords. The sleeping apartments have been refurnished throughout with bedroom sets, bedding, carpets, etc. The proprietors, Messrs. Swann and Eastwood, are deserving of much patronage for the manner in which they have fitted up their house. Hotel Brunswick is the recognized headquarters of the Traveling Men's association. Merchants and other visitors from out of the city are especially invited to make this place their headquarters whether they register or not. Bundles will be checked free of charge. Success to Hotel Brunswick.

KILLED A DESPERADO!

A Railroad Brakeman Attacked by Two Desperadoes—He Kills One and is Wounded in Return.

STANFORD, Ky., Jan. 24.—Last evening, as Conductor Omilly's south-bound freight train was passing Pittsburg, just above here, James Raines, a brakeman, was fired upon by two desperadoes, Tom Stringer and Sam Graggs. Raines returned the fire, both balls taking effect on Graggs, one through the heart and the other in the temple, killing him instantly.

Raines then started toward the caboose, when Stringer fired at him, striking Raines in the hip. Raines was brought to this place and is in a serious condition. Considerable excitement prevails, as it is reported that a number of Graggs' friends are expected to-night who will attempt to take Raines.

He is at his father's home and is guarded by a score of resolute railroad men, and should the mob make the attempt there will bloodshed.

No State Veterinarian.

A number of applications have been made to Governor Hovey for appointment as state veterinarian. Upon examination it has been found that there is no law for such an appointment, as there is no such office, and consequently the governor will not name any one for such a place.

THURSDAY, JAN. 24, 1889.

THE federal grand jury at Indianapolis have so far returned seventy-five indictments for election offenses and are still working.

The state normal school wants an appropriation of $100,000, the university at Bloomington asks for $50,000 and the other university at Lafayette demands $90,000 to carry them until the next legislature convenes. Indiana is certainly already very liberal to its educational departments, and still a senator proposes free books for the school children.

A PETITION is being circulated at Logansport asking the legislature to empower county boards of commissioners to purchase the toll pikes and make them free. It is widely signed by business men and citizens. The plan is expected to lead to freeing the gravel roads in Cass and any other county that chooses to avail themselves of its provisions.

IMPORTANT negotiations are in progress in New York looking to the virtual merging of almost all the sleeping car interests with the Pullman company. Some important deals have been closed within a day or so. It is stated the Pullman company have secured control of the Mann and Woodruff companies with their plants and contracts. It will eventually be pretty expensive to sleep.

THE fact that the Philadelphia merchant prince, Mr. John Wannamaker, postponed his European tour and paid a visit to President-elect Harrison yesterday, gives force to the conclusion that he will occupy a cabinet position, either secretary of war or postmaster general. THE SENTINEL does not admire Mr. Wannamaker's politics or his boodle election methods, but aside from these he is eminently fitted to grace a place in the cabinet. He is a thorough business man, always pushing ahead and the greatest evidence of the power of newspaper advertising, a feature that he elevated to the plane of sience.

MR. GOFF, the republican who is endeavoring to get recognition as governor of West Virginia by the Louisiana returning board process of throwing out precincts which voted against him, and counting in precincts in which the courts have decided that fraudulent votes were cast, is threatening now to wade through gore to the executive chair. The legislature of the state refuses to recognize Mr. Goff's process, or to give him a certificate of election to which he has no just claim, and the president of the state senate, a labor party representative, will preside over the destinies of the state. The only way in which Goff's usurpation can be accomplished is through the intervention of the army, and he expects Harrison to help him with a sufficient force after the 4th of March. We shall see about it then.

AN effort will be made to induce the legislature to appropriate $200,000 to drain the Kankakee swamps in northern Indiana. By cutting through a ledge on the western boundary of the state an outlet can be had. Fully 1,700 square miles of land can thus be reclaimed, and there is no doubt but that the state would in the end reap great benefit from this, at present, valueless and worthless region. But aside from this fact, it is vicious legislation and there is no more reason why the state should improve the Kankakee lands for private owners than that it should pay for draining the Little river region in this and Huntington counties, or improve a man's farm or anything else. If the state would acquire the lands for reclaiming them, why that would be different.

HON. BENJ. PATTON, of Hicksville, Ohio, is well known in Fort Wayne and his towering figure is familiar to a great many people. The judge is a warm personal friend of Hon. A. P. Edgerton and like him a staunch and prominent democrat. Nevertheless, Judge Patton has engaged parlors at the Willard hotel, Washington, for the coming inauguration to continue a most notable custom of his. Sixty years ago he stayed at Willard's during the week of President Jackson's inauguration. That was in 1826, and Mr. Patton was twenty-one years old. He is now eighty-one, and has witnessed the inauguration of more than half the presidents of the United States. General Jackson's inauguration was the first he ever saw, and during his visit to Washington he secured the position of United States attorney for the western district of Pennsylvania. This place he held for many years, and he finally moved to Ohio. Mr. Patton attended the inauguration of Gen. Wm. Henry Harrison in 1841. "Old Tippecanoe," he says, rode horseback from the white house to the capitol without overcoat or gloves, although the day was quite cool. For a week's board and lodging at the Willard then Mr. Patton paid $6.12, although Washington was one of the largest and best towns in the Union.

HANDLING DYNAMITE.

It Was One of the Topics in the Senate Yesterday—The Features of Indiana Legislation in the Best Form.

INDIANAPOLIS, Ind., Jan. 24.—Everything was strictly business with the senate yesterday.

Senator Shockney's bill, making the terms of county clerks, auditor, treasurers, sheriffs, and recorders begin on the 1st of January, came up for consideration on second reading, but the constitutionality of such an act was questioned by Senator Johnson, and it was referred to the committee on judiciary for a report on that point.

Senator Smith's bill, making it unlawful to manufacture dynamite or any other nitro-explosive compound within one hundred rods of any occupied dwelling or public building, was read a second time, and after a few amendments, engrossed. It also makes it unlawful to store dynamite in any quantity exceeding one hundred pounds within the limits of any municipal corporation or within forty rods of any occupied dwelling without having first obtained in writing the consent of all adjacent land owners. It is also required that in the transportation the explosive packages shall be plainly marked "dynamite—dangerous." Any person failing to comply with the provisions of the act may be fined $500 and imprisoned for one year. When dynamite is sold it must be marked as such and in a book to be kept for that purpose shall be registered the name of the person to whom it was sold or given, the age, sex, and place of residence of the purchaser. The penalty for violating this provision is a fine of from $100 to $1,000, to which may be added imprisonment for one year. Any person found carrying a bomb or nitro-explosive compound for any other than legitimate uses shall be imprisoned two years.

Senator Barrett, chairman of the committee on judiciary, presented reports favorable to bills introduced as follows: By Senator Hayden, amendment of an act to fix the salaries of judges; by Senator Traylor, defining the crime of riotous conspiracy, intended to apply specially to the White Caps; by Senator S. P. Thompson, to enable joint suits to be maintained upon several bonds of public officers; by Senator Hays, prescribing the acts of judges and clerks in guardianship, and by Senator Shockney, to amend sections 213 and 215, and to repeal section 160 of an act concerning proceedings in criminal cases. The committee also recommended the indefinite postponement of the bill of Senator Griffith, concerning criminal proceedings; by Senator Shockney, to amend sections 339 and 343 of the revised statutes; by Senator S. P. Thompson, to amend section 298 of an act concerning proceedings in civil cases; by Senator Dresser, to amend section 298 of an act concerning proceedings in civil cases; by Senator Dresser, to amend section 2,931 R. S. and by Senator Smith concerning public offenses.

On the bill introduced by Senator Urmston providing for the incorporation of the Indiana Swine Breeder's association, the committee on agriculture made a favorable report.

The committee on county and township business reported favorably on the following bills: By Senator Bozaman, amending the act authorizing townships to construct and repair bridges; by Senator Smith, amending the sixth section of the act limiting the allowances of courts; by Senator Urmston, providing for the superintending of free gravel roads: by Senator Hale, amending section 4,787 of the revised statutes; by Senator Smith, to prevent gambling in grain, stocks, petroleum, wool and provisions; by Senator Shockney, fixing the fees and compensation of county commissioners.

Favorable reports were presented by the committee on cities and towns in the bill introduced by Senator Griffith to authorize cities to construct levees; by Senator Barrett, concerning the powers and duties of cities; and by Senator Hayes to legalize the incorporation of Rushville.

When the senate met yesterday afternoon the pending business was a report from the committee on judiciary, recommending the indefinite postponement of a bill providing that prosecuting attorneys should not collect fees in cases where the prosecuted person is arrested by the police. The bill is strongly opposed by the prosecuting attorneys, because if it should be enacted, it would deprive them of fees in the cities that now amount to a large sum. Senator Shockney spoke in favor of the bill, but the report of the judiciary committee recommending its indefinite postponement was concurred in.

A bill was introduced by Senator DeMotte proposing "to encourage attendance at the public schools," and Senator Hudson presented a bill providing for the registration of plumbers and the supervision of them.

THE HOUSE.

In the house a roll call for the introduction of bills brought out a number of new measures relating to notaries, [illegible]. Mr. Dilzer introduced a bill providing for the purchase of ten acres of land for use of the Insane hospital at Logansport. Mr. Dolan, of Monroe, proposed a bill to appropriate $60,000 for the erection of a fire proof library building for the state university at Bloomington. Mr. Applegate, after considerable industry, had constructed a concurrent resolution providing for a commission appointed by the governor and general assembly which should prepare a fee and salary bill to be presented to the next general assembly. It was unceremoniously laid upon the table much to the discomfiture of its author.

Mr. Anderson, of Clay, introduced a long measure which takes from the governor the appointment of a state mine inspector, and provides for the appointment of that officer by a civil service examination. The examination shall be held by a commission composed of a mining engineer, a mine operator and three practical miners, all elected by the general assembly. Mr. Kelley, of DeKalb, introduced a bill exempting pension money from execution for debt. Mr. Cranor, of Delaware, proposed a bill to dredge White river in his county, and use $20,000 of the state's good money for the purpose. It is asserted that the large Mississippi steamers can not now land at the Muncie wharf. A second bill by the same gentleman prohibits the use of any machinery on railroads which requires employes to go between cars while in motion.

Mr. Claypool submitted a bill making it a misdemeanor for the state, county or town official to accept a pass from a railroad company; Mr. Warrum, a bill prohibiting the use of screens before saloon doors; Mr. Mendenhall, a bill adding three county superintendents to the state board of education to be appointed by the governor; Mr. Brownlee, making a debt for tile a lien on the land; Mr. White, regulating practice of medicine by examination and license.

Mr. Willard's resolution in reference to Colonel Robertson's salary, fully detailed yesterday, occupied the rest of the day.

Bills by Fort Wayne Members.

By Barrett, to repeal and amend an act relating to townships.

By Shambaugh, to authorize the sale of certain state lands, and the recovery of lands belonging thereto. Also to amend section 590, R. S., relating to the appointment of notaries public.

Mr. Barrett offered a joint resolution instructing the senate finance committee and the house ways and means committee to examine the accounts of the state house commissioners and prepare a bill discharging them from further service.

Bills Passed by the House.

In spite of the objections of Mr. Willard, chairman of the committee on ways and means, the house yesterday afternoon passed the bill appropriating $100,000 for the erection of the state normal school's new buildings at Terre Haute, by a vote of 71 to 16. Mr. Willard said that the buildings had been erected already, and that they had cost only $50,000, which had been paid by the citizens of Terre Haute. The general assembly had been furnished no estimate or statement showing that there was actual need of so much money and he believed that it would be a reckless waste of the state's money to pass the bill.

Representative Moon's bill, providing that teachers shall be paid for attending township institutes, was passed by a vote of 82 to 7. Another bill that was passed was the one reducing interest on school fund loans from 8 to 6 per cent., and one legalizing the acts of notaries public whose commissions have expired and who are ineligible to office.

Mr. Willard and His Bills.

Mr. Willard was in his element in the house yesterday. His wife shared his seat and seemed to inspire him with tremendous activity. Besides the commotion aroused by his Robertson resolution, he introduced two bills which are of considerable importance.

The first makes twenty-five years constitute a life sentence in state prisons, including the female reformatory. From this period the usual allowance for good behavior is made; so that a life sentence for a well-behaved convict under its provisions would be but about nineteen years. At the expiration of that time he is to be liberated on a probation of five years, and if he shows himself a law-abiding citizen when the five years have elapsed he is declared entirely freed from the sentence. But if he is convicted of violating any law during his probation he shall be again incarcerated and continue in confinement during the remainder of his natural life.

The second bill from Mr. Willard's pen is substantially an application of the provisions of the inter-state commerce law to the operation of railroads within the state. It includes the long and short haul clause and other leading features or the inter-state law.

Governor Bigger's Grave at Fort Wayne.

There is a bill before the house appropriating $3,000 to erect a monument on the grave of Johnathan Jennings, the first governor of Indiana, whose grave is overgrown with underbrush

RHEUMATISM OR NEURALGIA

These two diseases cause untold suffering. Druggists admit that they are obliged to furnish more medicine for them than for any other two diseases. Many of the remedies sold are positively injurious, and all of them are unreliable. Paine's Celery Compound has permanently cured the worst cases of rheumatism and neuralgia—so say those who have used it.

"Having been troubled with rheumatism at the knee and foot for five years, I was almost unable to get around, and was very often confined to my bed for weeks at a time. I used only one bottle of Paine's Celery Compound, and was perfectly cured. I can now jump around, and feel as lively as a boy." FRANK CASOLI. Eureka, Nevada.

"Paine's Celery Compound has done me more good than anything I ever took. For years I have suffered from dyspepsia, and your Compound is the only medicine that has ever done me any permanent benefit. I have used nearly four bottles of the Compound, and am entirely free from the complaint. I feel very grateful to you." CHAS. H. LEWIS, Central Village, Conn.

Paine's Celery Compound

"I have been greatly afflicted with rheumatism, and could find no remedy that would relieve me. But after I had used Paine's Celery Compound. After using six bottles of this medicine I am entirely free from rheumatic troubles." SAMUEL HUTCHINSON, Sr., Corinth, N. H.

Effects Lasting Cures.

Paine's Celery Compound has performed many other cures as marvelous as these.—Copies of letters sent to any address. Pleasant to take; does not disturb, but aids digestion, and strengthens vegetable; a child can take it. What's the use of suffering longer with rheumatism or neuralgia?

LONG LIFE.

There is nothing in the world more generally desired than long life, yet the majority of people put off caring for their health—not because they are really careless, but because we live our lives at such a pace we have not time to give the subject sufficient thought until we receive a reminder in the shape of a severe illness.

Then, too, we are constantly bewildered by the various schools of medicine, and the physicians who represent them, and often blunder in our choice of a doctor.

If people only knew that the very best health-keeper, life-preserver and disease preventer that has yet been discovered, is simmered down into a concentrated and very palatable form in the shape of New Style Pleasant Taste Vinegar Bitters, they would not hesitate a moment to try it.

But they do not know. How can they know, when so many not only worthless, but positively injurious drugs are constantly flooding the market under various names and guises, that the New Style Vinegar Bitters is as bad as any of them?

They do not know, of course, unless they have the courage to try the New Style. It straightens out a tangled-up system in a very short while, and those who buy it once buy it always.

Why don't you try it, reader? It is sent out by a responsible house, and is exactly as represented. It costs but a dollar for a very large bottle. Try it once and you will never be so glad of anything in your life. Your druggist may not have it, but he will order it for you. Be sure it says New Style Pleasant Taste on carton and bottle before you take it. Try it, and you will feel happier than if you had found a gold mine, for it really is a mine—of health.

HANDLING DYNAMITE.

(Continued From Second Page.)

somewhere in southern Indiana. Jennings' grave is no more respected than Governor Bigger's resting place at Fort Wayne. Until the city made a park out of it, the old graveyard in which the ex-governor was buried was used as a cow pasture. There was nothing to mark the grave but a slab laid over it, with this simple inscription: "Samuel Bigger, ex-Governor of Indiana." The grave was shaded by a large sycamore tree, which made the grave of a Hoosier governor very attractive for the Fort Wayne cows during the summer days. When the city turned the burial ground into a park two years years ago, a wire fence was placed around the grave of Bigger and it remains in that condition this day.

Will be Thoroughly Investigated.

Before the state house is accepted from the commissioners the charges that the plumbing in the building is defective will be investigated. The result of the inquiry was foreshadowed in the report which gave an investigating committee wide power to act.

Senator Barrett wanted to know what was contemplated in the request that the committee "be given full power to act." The words might be interpreted as meaning more than the senate was willing they should. He thought it would be giving very broad power, but he had no idea that it would be abused by the committee.

A Treasury Investigation.

Mr. Wilson introduced a resolution, with a whereas, stating that there had been rumors during the years 1887 and 1888 affecting the state treasury and the treasurer, and, in consequence, it was important that there should be an investigation into the affairs of the office. The resolution provided that a committee of five should be appointed to conduct the investigation. The resolution was adopted.

PLEASANT REMEMBRANCE.

A Fort Wayne Lady is Appreciated by Her Pupils.

The Albion *Democrat* has this pleasant reference to Miss Jennie Sedgwick, a graduate of St. Augustine's Academy, in this city, and formerly a resident here:

"Miss Jennie Sedgwick, teacher in room 3, of the Albion school, was most pleasantly surprised on Thursday evening last, by most of the pupils under her charge, who unexpectedly visited her in a body, with many offerings—presents both beautiful and useful—testimonials of the respect and affection inspired by their association as teacher and pupils. It was needless to enlarge upon the genuine pleasure to a conscientious teacher of such incidents, and the mutual inspiration to greater effort and purpose, arising therefrom."

A New Railway Project.

ANGOLA, Ind., Jan. 24.—There is a project on foot which, if consumated, will give Angola another railroad. A line is proposed from Columbus, Ohio, by way of Lima, Defiance and Bryan, Ohio, through Steuben county from southeast to northwest, taking in Angola and Orland, to Sturgis, Mich., there to connect with another line to South Haven, on Lake Michigan. The proposed road is said to be under contract from Columbus to Defiance, O.

Salt Rheum

With its intense itching, dry, hot skin, often broken into painful cracks, and the little watery pimples, often causes indescribable suffering. Hood's Sarsaparilla has wonderful power over this disease. It purifies the blood and expels the humor, and the skin heals without a scar. Send for book containing many statements of cures, to C. L. Hood & Co., Apothecaries, Lowell, Mass.

Lafayette Will Have Gas.

LAFAYETTE, Ind., Jan. 24.—The books of the Citizens' Natural Gas company, of this city, were closed yesterday with a capital stock of nearly $400,000. The company has received an ordinance and will pipe from Kempton, a distance of thirty-six miles; commencing operations in the spring.

Ayer's Sarsaparilla is prescribed and recommended by eminent physicians, and is taken with perfect safety by old and young. It soleansing and vitalizing effects are sure and speedy, and it is universally conceded to be most effective of all blood purifiers.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

The Suicide Wave Spreads. One Bad Debt Collecting Agency Here.

THE SENTINEL yesterday devoted much space to airing the depraved practices of one Smith. The fellow is none other than the Smith who operated the "Bad Debt Collecting Agency" here. The man had an office over Klinkenberg & Detzer's drug store and roomed with his wife at Miss Ellen Finn's boarding house, on West Washington street.

He drove a wagon about town with the huge words, "Bad Debts Collected," on either side. He got into a controversy with some business men and when closely pressed left the city.

It is said that while here he encouraged his wife's shame and was dead to all sense of honor.

A SERIOUS CHARGE.

A Young Man at Huntington Embezzles From a Fort Wayne Firm.

The Huntington *Herald* says:

"An affidavit is filed with 'Squire John by S. R. Alden, of Fort Wayne, in behalf of the state against Joseph Z. Scott, of this city, on the charge of embezzlement.

"The defendant, it appears, as the attorney for a business firm in Fort Wayne, named Cooper & Conard, collected nearly $600 of money due the firm and failed to account for the same. His arrest was made to-day and the case is to be heard before 'Squire William John."

Ayer's Pills cure constipation, improve the appetite, promote digestion, restore healthy action, and regulate every function. This medicine is pleasant to take and gentle in its operation. See article in Ayer's Almanac.

It is a well-known fact that POND'S EXTRACT is used and recommended by more distinguished people than any preparation or remedy extant.

It is used in the household of the President as well as that of the humblest citizen; by members of the army and the navy, the Bar and the Bench, the pulpit and the press—all ranks and classes of people. To further illustrate this fact we append a few of the more recent letters from Governors of different States:

CURES FOOT ROT, SHOULDER-ROT, SCREW-WORM AND SCAB IN SHEEP!

To Assist Nature
In restoring diseased or wasted tissue is all that any medicine can do. In pulmonary affections, such as Colds, Bronchitis, and Consumption, the mucous membrane first becomes inflamed, then accumulations form in the air-cells of the lungs, followed by tubercles, and, finally, destruction of the tissue. It is plain, therefore, that, until the hacking cough is relieved, the bronchial tubes can have no opportunity to heal. Ayer's Cherry Pectoral

Soothes and Heals
the inflamed membrane, arrests the wasting process, and leaves no injurious results. This is why it is more highly esteemed than any other pulmonary specific.

L. D. Bixby, of Bartonsville, Vt., writes: "Four years ago I took a severe cold, which was followed by a terrible cough. I was very sick, and confined to my bed about four months. My physician finally said I was in consumption, and that he could not help me. One of my neighbors advised me to try Ayer's Cherry Pectoral. I did so, and before I had taken half a bottle was able to go out. By the time I had finished the bottle I was well, and have remained so ever since."

Alonzo P. Daggett, of Smyrna Mills, Me., writes: "Six years ago, I was a traveling salesman, and at that time was suffering with

Lung Trouble.
For months I was unable to rest nights. I could seldom lie down, had frequent choking spells, and was often compelled to seek the open air for relief. I was induced to try Ayer's Cherry Pectoral, which helped me. Its continued use has entirely cured me, and, I believe, saved my life."

"The Gladstone" LAMP

is the finest lamp in the world. It gives a pure, soft, brilliant white light of 85 candle power,—a *marvelous light from ordinary oil!* Nobody ever supposed such a light was possible from Kerosene oil; yet it is there, and
Seeing is Believing
A "wonderful lamp" it is in all respects. It never needs trimming, never smokes nor breaks chimneys, never "smells of the oil," no gumming up, no leaks, no sputtering, no climbing of the flame, no annoyance of any kind, and cannot explode. And then, beside all these advantages, think of a lamp giving a *clear, white light, 10 to 20 times the size and brilliancy of any ordinary house lamp!*
"The Gladstone" is made of high-grade, hard rolled metal (all parts interchangeable), and in elegant designs for Dining or Parlor Table, the Study, Drawing-room, Hall or Chamber. Finished in either Gold bronze, Nickel or Antique bronze. Every home should have it.
Illustrated price list will be sent you on receipt of a postal card. Single lamps at *wholesale price*, with or without porcelain shade, carefully boxed and sent by express to any part of the country.

SKIPS WITH A COACHMAN.

Miss Van-der-Esch Marries Her Father's Coachman and Returns for Parental Blessing.

NEW YORK, Jan. 24.—A daughter of Paul Van-der-Esch, superintendent of the Astoria silk mills, eloped on Saturday with her father's coachman, Wm. Sillers. After their marriage the couple returned to Astoria. Mr. Van-der-Esch met them and invited them to his residence. Mrs. Van-der-Esch, however, refused to admit them and they went to Sillers' lodging, where they still remain. Mr. Van-der-Esch has given Siller a good position in the silk mill.

AN IRATE MEMBER!

Of the Ohio Legislature Creates a Sensation in the House Which Nearly Ends in Blows.

COLUMBUS, O., Jan. 24.—A scene took place in the house of representatives just before adjournment last evening. It seemed likely to come to a personal encounter but that was averted.

Representative Geyer wanted the floor to move to adjourn. The chair evidently desired the session to continue and refused to recognize him. Geyer grew furious and yelled, "Mr. speaker," at the top of his voice. The chair ordered the sergeant-at-arms to put him out.

This the latter attempted to do, but Geyer would not budge. A member volunteered to help Geyer, but that was unnecessary, as the little sergeant-at-arms was powerless. Members crowded around and persuaded Geyer to desist and avoid a scene.

When quiet was restored a hearty adjournment was made.

A SERIOUS ACCIDENT.

An Elevated Passenger Coach Crushed Into—One Man Killed and Several Injured.

BROOKLYN, N. Y., Jan. 24.—A serious accident occurred on the Kings County Elevated railroad at Nostrand avenue and Fulton street, this morning. A dense fog prevailed making it impossible to see more than a few feet ahead. Trains loaded with passengers going to business were following one another in quick succession.

At the point stated above a train had drawn up at the station, when the one following crushed into it, telescoping the rear car. One man, named Annison, was killed, and about a dozen are reported more or less seriously injured.

MINING TROUBLES.

The Refusal of Men to Quit Work Precipitates a Bloody Fight.

ROANOKE, Va., Jan. 24.—In the West Virginia coal regions a fight is said to have occurred yesterday morning between the Pocahontas and Elkhorn miners, in which five white men and two negroes were killed and several wounded. The conflict was brought about by the Pocahontas miners again suspending work and encouraging others to follow them.

SHENNADOAH, Va., Jan. 24.—Rioting has again broken out between the Hungarian and Italian laborers in the mines here and at Barrys station, two miles distant. One Hungarian was burned alive in his shanty.

Appropriate resolutions concerning his death were adopted in the house and senate, and pall bearers, consisting of seven from the house and three from the senate were appointed to accompany his remains to his home.

The remains of Mr. Barnes, accompanied by the congressional delegation, will leave here in a special car over the Pennsylvania railroad, at 7:43 to-night, for St. Joseph, Mo. There will be no funeral services in this city.

The convention attracts a great many strangers to Fort Wayne and they are noted in the hotel arrivals.

A GIGANTIC SWINDLE.

Iowa Farmers Contribute Toward the Construction of a Railroad That Will Never be Built.

DES MOINES, Ia., Jan. 24,—The corps of surveyors that came into Boone with their plausible scheme for a railroad from Minneapolis to Kansas City, via Boone, are in durance vile. They had a row among themselves and one of the party exposed the scheme. The men are out on their own hook running this survey and demanding donations for locating depots. They have had a rich harvest, getting considerable money from the towns they went through and they secured some in Boone. On the information filed before Justice Frank, C. H. Evans, the leader of the party, was arrested and is now on trial for obtaining money under false pretenses.

WM. O'BRIEN!

His Trial Began at Dublin To-day—The Exciting Scenes as He is Taken to the Court Room.

DUBLIN, Jan. 24.—Wm. O'Brien's trial began this morning. Twenty thousand people gathered about the court house to see him when he came. Six hundred policemen, with drawn batons, charged upon the crowd, clubbing right and left, but they were unable to disperse the throng, whose excitement reached a feverish point.

When he attempted to pass through the crowd to enter the court house, he was impeded by the press of the throng, and an inspector seized upon him and dragged him for about thirty yards.

Maddened at this sight the people pressed forward to rescue O'Brien, but were repulsed by the police, who formed around the inspector and his prisoner.

Mr. Healy had a bayonet presented at his breast, but it did not pierce his clothing. The newspaper reporters were treated with violence also. As soon as Mr. O'Brien entered the court he complained to the magistrate that the police were endeavoring to incite a bloody riot among the people.

Mr. Timothy Healy, M. P., defended Mr. O'Brien in the trial.

Messrs. Dennis Kilbride, member of parliament for Kerry, and James L. Carew, member of parliament for Kildare, have refused to answer summons for offences under the coercion act. Warrants for their arrest have been issued by a magistrate.

HOMEOPATHS WANT A CHANGE.

They Think They Can Cure Many of the Alleged Incurably Insane.

The Indianapolis *Sentinel* says:

Dr. G. W. Bowen, of Fort Wayne, is in the city with a petition having 500 signatures asking the appointment of homeopathic physicians among those at the insane asylums. Dr. Bowen, in speaking of the matter last night, said:

"The homeopathic physicians of the state only ask that they be given a chance to treat the incurable (or those so designated.) They ask this from the fact that Massachusetts and New York have seen it prudent to place two institutions of that class in the care of the homeopathic physicians with the best of results. The Middleton asylum in New York has also been under the care of Dr. Talcott for years, and the treatment has been exclusively homeopathic with results better than ever attained in any other institution of the kind before. They are willing to treat that class of cases and show that they are not beyond the reach of medical assistance. This school of medicine is and has been indorsed by the neighboring states of Ohio, Michigan and Illinois, and several of their public charities and institutions are so treated. Humanity demands that a chance should be given these poor unfortunate ones."

Dr. J. F. Mock, of Marion, is in the city.

William Klomp and Sophia Smith have been licensed to wed.

Mrs. Susan Wilson has been accepted at the state insane asylum.

That is What is in Store for the Visiting Legislators—The Banquet and Toasts.

Preparations for the reception of the legislative party Saturday evening next, are going on nicely. Mr. John G. Blake, superintendent of the school for feeble minded youth came up from Richmond to-day, and met Mayor Muhler and Mr. S. M. Foster, who have the arrangements in charge.

Mr. Blake will entertain the visitors at the Richmond asylum Saturday afternoon, and will accompany them to this city on the special train arriving here about 8 o'clock.

It is proposed that the banquet at the Wayne hotel will begin at 9 o'clock. Mr. S. M. Foster will preside at the feast, with Mayor Muhler at his right.

It is now believed that Governor Hovey, Speaker Niblack, and other distinguished gentlemen will come with the party of fifty or more senators and representatives and will be guests of the city until 10 o'clock, Monday.

The supper will be divided by toasts, responses, songs and possibly instrumental music, giving it the rarest features, and Mr. Will McKinnie will issue a bill of fare such as legislators seldom feast their eyes on.

The Business Men's exchange has issued some 200 invitations to the banquet and it is anticipated that spreads will be needed for at least that number.

The toasts of the evening are announced:

STRICTLY METROPOLITAN.

The Brunswick Hotel Lifts Its Head as High as The Highest in Its New Features and Arrangements.

Fort Wayne can justly be proud of her hotels and among them the Hotel Brunswick (formerly Robinson). This house is the most centrally located, being only one square from three different street railway lines, running to depots and to all parts of the city. Those who knew the Robinson would be surprised at the complete renovation and alteration the house has undergone. The entrance has been changed two doors north, and leads into a commodious and comfortable office fronting fifty feet on Harrison street, and affording a view of the entire length of Columbia street. To the left, as one enters the office, is the cheerful looking dining room. This room is well lighted, is refurnished, and the table is kept up with the very best the season and market affords. The sleeping apartments have been refurnished throughout with bedroom sets, bedding, carpets, etc. The proprietors, Messrs. Swann and Eastwood, are deserving of much patronage for the manner in which they have fitted up their house. Hotel Brunswick is the recognized headquarters of the Traveling Men's association. Merchants and other visitors from out of the city are especially invited to make this place their headquarters whether they register or not. Bundles will be checked free of charge. Success to Hotel Brunswick.

KILLED A DESPERADO!

A Railroad Brakeman Attacked by Two Desperadoes—He Kills One and is Wounded in Return.

STANFORD, Ky., Jan. 24.—Last evening, as Conductor Omilly's south-bound freight train was passing Pittsburg, just above here, James Raines, a brakeman, was fired upon by two desperadoes, Tom Stringer and Sam Greggs. Raines returned the fire, both balls taking effect on Greggs, one through the heart and the other in the temple, killing him instantly.

Raines then started toward the caboose, when Stringer fired at him, striking Raines in the hip. Raines was brought to this place and is in a serious condition. Considerable excitement prevails, as it is reported that a number of Greggs' friends are expected to-night who will attempt to take Raines.

He is at his father's home and is guarded by a score of resolute railroad men, and should the mob make the attempt there will bloodshed.

THURSDAY, JAN. 24, 1889.

THE federal grand jury at Indianapolis have so far returned seventy-five indictments for election offenses and are still working.

The state normal school wants an appropriation of $100,000, the university at Bloomington asks for $50,000 and the other university at Lafayette demands $90,000 to carry them until the next legislature convenes. Indiana is certainly already very liberal to its educational departments, and still a senator proposes free books for the school children.

A PETITION is being circulated at Logansport asking the legislature to empower county boards of commissioners to purchase the toll pikes and make them free. It is widely signed by business men and citizens. The plan is expected to lead to freeing the gravel roads in Cass and any other county that chooses to avail themselves of its provisions.

IMPORTANT negotiations are in progress in New York looking to the virtual merging of almost all the sleeping car interests with the Pullman company. Some important deals have been closed within a day or so. It is stated the Pullman company have secured control of the Mann and Woodruff companies with their plants and contracts. It will eventually be pretty expensive to sleep.

THE fact that the Philadelphia merchant prince, Mr. John Wannamaker, postponed his European tour and paid a visit to President-elect Harrison yesterday, gives force to the conclusion that he will occupy a cabinet position, either secretary of war or postmaster general. THE SENTINEL does not admire Mr. Wannamaker's politics or his boodle election methods, but aside from these he is eminently fitted to grace a place in the cabinet. He is a thorough business man, always pushing ahead and the greatest evidence of the power of newspaper advertising, a feature that he elevated to the plane of science.

MR. GOFF, the republican who is endeavoring to get recognition as governor of West Virginia by the Louisiana returning board process of throwing out precincts which voted against him, and counting in precincts in which the courts have decided that fraudulent votes were cast, is threatening now to wade through gore to the executive chair. The legislature of the state refuses to recognize Mr. Goff's process, or to give him a certificate of election to which he has no just claim, and the president of the state senate, a labor party representative, will preside over the destinies of the state. The only way in which Goff's usurpation can be accomplished is through the intervention of the army, and he expects Harrison to help him with a sufficient force after the 4th of March. We shall see about it then.

AN effort will be made to induce the legislature to appropriate $200,000 to drain the Kankakee swamps in northern Indiana. By cutting through a ledge on the western boundary of the state an outlet can be had. Fully 1,700 square miles of land can thus be reclaimed, and there is no doubt but that the state would in the end reap great benefit from this, at present, valueless and worthless region. But aside from this fact, it is vicious legislation and there is no more reason why the state should improve the Kankakee lands for private owners than that it should pay for draining the Little river region in this and Huntington counties, or improve a man's farm or anything else. If the state would acquire the lands for reclaiming them, why that would be different.

HON. BENJ. PATTON, of Hicksville, Ohio, is well known in Fort Wayne and his towering figure is familiar to a great many people. The judge is a warm personal friend of Hon. A. P. Edgerton and like him a stanuch and prominent democrat. Nevertheless, Judge Patton has engaged parlors at the Willard hotel, Washington, for the coming inauguration to continue a most notable custom of his. Sixty years ago he stayed at Willard's during the week of President Jackson's inauguration. That was in 1826, and Mr. Patton was twenty-one years old. He is now eighty-one, and has witnessed the inauguration of more than half the presidents of the United States. General Jackson's inauguration was the first he ever saw, and during his visit to Washington he secured the position of United States attorney for the western district of Pennsylvania. This place he held for many years, and he finally moved to Ohio. Mr. Patton attended the inauguration of Gen. Wm. Henry Harrison in 1841, "Old Tippecanoe," he says, rode horseback from the white house to the capitol without overcoat or gloves, although the day was quite cool. For a week's board and lodging at the Willard then Mr. Patton paid $9.13, although occupying one of the largest and best rooms in the hotel.

HANDLING DYNAMITE.

It Was One of the Topics in the Senate Yesterday—The Features of Indiana Legislation in the Host Form.

INDIANAPOLIS, Ind., Jan. 24.—Everything was strictly business with the senate yesterday.

Senator Shockney's bill, making the terms of county clerks, auditor, treasurers, sheriffs, and recorders begin on the 1st of January, came up for consideration on second reading, but the constitutionality of such an act was questioned by Senator Johnson, and it was referred to the committee on judiciary for a report on that point.

Senator Smith's bill, making it unlawful to manufacture dynamite or any other nitro-explosive compound within one hundred rods of any occupied dwelling or public building, was read a second time, and after a few amendments, engrossed. It also makes it unlawful to store dynamite in any quantity exceeding one hundred pounds within the limits of any municipal corporation or within forty rods of any occupied dwelling without having first obtained in writing the consent of all adjacent land owners. It is also required that in the transportation the explosive packages shall be plainly marked "dynamite—dangerous." Any person failing to comply with the provisions of the act may be fined $500 and imprisoned for one year. When dynamite is sold it must be marked as such and in a book to be kept for that purpose shall be registered the name of the person to whom it was sold or given, the age, sex, and place of residence of the purchaser. The penalty for violating this provision is a fine of from $100 to $1,000, to which may be added imprisonment for one year. Any person found carrying a bomb or nitro-explosive compound for any other than legitimate uses shall be imprisoned two years.

Senator Barrett, chairman of the committee on judiciary, presented reports favorable to bills introduced as follows: By Senator Hayden, amendment of an act to fix the salaries of judges; by Senator Traylor, defining the crime of riotous conspiracy, intended to apply specially to the White Caps; by Senator S. P. Thompson, to enable joint suits to be maintained upon several bonds of public officers; by Senator Hays, prescribing the acts of judges and clerks in guardianship, and by Senator Shockney, to amend sections 218 and 215, and to repeal section 160 of an act concerning proceedings in criminal cases. The committee also recommended the indefinite postponement of the bill of Senator Griffith, concerning criminal proceedings; by Senator Shockney, to amend sections 339 and 343 of the revised statutes; by Senator S. P. Thompson, to amend section 298 of an act concerning proceedings in civil cases; by Senator Dresser, to amend section 288 of an act concerning proceedings in civil cases; by Senator Dresser, to amend section 2,931 R. S. and by Senator Smith concerning public offenses.

On the bill introduced by Senator Urmston providing for the incorporation of the Indiana Swine Breeder's association, the committee on agriculture made a favorable report.

The committee on county and township business reported favorably on the following bills: By Senator Bozeman, amending the act authorizing townships to construct and repair bridges; by Senator Smith, amending the sixth section of the act limiting the allowances of courts; by Senator Urmston, providing for the superintending of free gravel roads; by Senator Hale, amending section 4,787 of the revised statutes; by Senator Smith, to prevent gambling in grain, stocks, petroleum, wool and provisions; by Senator Shockney, fixing the fees and compensation of county commissioners.

Favorable reports were presented by the committee on cities and towns in the bill introduced by Senator Griffith to authorize cities to construct levees; by Senator Barrett, concerning the powers and duties of cities; and by Senator Hayes to legalize the incorporation of Rushville.

When the senate met yesterday afternoon the pending business was a report from the committee on judiciary, recommending the indefinite postponement of a bill providing that prosecuting attorneys should not collect fees in cases where the prosecuted person is arrested by the police. The bill is strongly opposed by the prosecuting attorneys, because if it should be enacted, it would deprive them of fees in the cities that now amount to a large sum. Senator Shockney spoke in favor of the bill, but the report of the judiciary committee recommending its indefinite postponement was concurred in.

A bill was introduced by Senator DeMotte proposing "to encourage attendance at the public schools," and Senator Hudson presented a bill providing for the registration of plumbers and the supervision of them.

THE HOUSE.

In the house a roll call for the introduction of bills brought out a number of new measures relating to notaries, turnpikes, etc. Mr. Custer introduced a bill providing for the purchase of ten acres of land for use of the Northern Insane hospital at Logansport. Mr. Dolan, of Monroe, proposed a bill to appropriate $60,000 for the erection of a fire proof library building for the state university at Bloomington. Mr. Applegate, after considerable industry, had constructed a concurrent resolution providing for a commission appointed by the governor and general assembly which should prepare a fee and salary bill to be presented to the next general assembly. It was unceremoniously laid upon the table much to the discomfiture of its author.

Mr. Anderson, of Clay, introduced a lung measure which takes from the governor the appointment of a state mine inspector, and provides for the appointment of that officer by a civil service examination. The examination shall be held by a commission composed of a mining engineer, a mine operator and three practical miners, all elected by the general assembly. Mr. Kelley, of DeKalb, introduced a bill exempting pension money from execution for debt. Mr. Cranor, of Delaware, proposed a bill to dredge White river in his county, and use $20,000 of the state's good money for the purpose. It is asserted that the large Mississippi steamers can not now land at the Muncie wharf. A second bill by the same gentleman prohibits the use of any machinery on railroads which requires employes to go between cars while in motion.

Mr. Claypool submitted a bill making it a misdemeanor for the state, county or town official to accept a pass from a railroad company; Mr. Warrum, a bill prohibiting the use of screens before saloon doors; Mr. Mendenhall, a bill adding three county superintendents to the state board of education to be appointed by the governor; Mr. Brownlee, making a debt for tile a lien on the land; Mr. White, regulating practice of medicine by examination and license.

Mr. Willard's resolution in reference to Colonel Robertson's salary, fully detailed yesterday, occupied the rest of the day.

Bills by Fort Wayne Members.

By Barrett, to repeal and amend an act relating to townships.

By Shambaugh, to authorize the sale of certain state lands, and the recovery of lands belonging thereto. Also to amend section 690, R. S., relating to the appointment of notaries public.

Mr. Barrett offered a joint resolution instructing the senate finance committee and the house ways and means committee to examine the accounts of the state house commissioners and prepare a bill discharging them from further service.

Bills Passed by the House.

In spite of the objections of Mr. Willard, chairman of the committee on ways and means, the house yesterday afternoon passed the bill appropriating $100,000 for the erection of the state normal school's new buildings at Terre Haute, by a vote of 71 to 16. Mr. Willard said that the buildings had been erected already, and that they had cost only $50,000, which had been paid by the citizens of Terre Haute. The general assembly had been furnished no estimate or statement showing that there was actual need of so much money and he believed that it would be a reckless waste of the state's money to pass the bill.

Representative Moon's bill, providing that teachers shall be paid for attending township institutes, was passed by a vote of 82 to 7. Another bill that was passed was the one reducing interest on school fund loans from 8 to 6 per cent., and one legalizing the acts of notaries public whose commissions have expired and who are ineligible to office.

Mr. Willard and His Bills.

Mr. Willard was in his element in the house yesterday. His wife shared his seat and seemed to inspire him with tremendous activity. Besides the commotion aroused by his Robertson resolution, he introduced two bills which are of considerable importance.

The first makes twenty-five years constitute a life sentence in state prisons, including the female reformatory. From this period the usual allowance for good behavior is made; so that a life sentence for a well-behaved convict under its provisions would be but about nineteen years. At the expiration of that time he is to be liberated on a probation of five years, and if he shows himself a law-abiding citizen when the five years have elapsed he is declared entirely freed from the sentence. But if he is convicted of violating any law during his probation he shall be again incarcerated and continue in confinement during the remainder of his natural life.

The second bill from Mr. Willard's pen is substantially an application of the provisions of the inter-state commerce law to the operation of railroads within the state. It includes the long and short haul clause and other leading features or the inter-state law.

Governor Bigger's Grave at Fort Wayne.

There is a bill before the house appropriating $3,000 to erect a monument on the grave of Johnathan Jennings, the first governor of Indiana, whose grave is overgrown with undergrowth

RHEUMATISM AND NEURALGIA

These twin diseases cause untold suffering. Doctors admit that they are difficult to cure—so do their patients. Paine's Celery Compound has permanently cured the worst cases of rheumatism and neuralgia—so say those who have used it.

"Having been troubled with rheumatism at the knee and foot for five years, I was almost unable to get around, and was very often confined to my bed for weeks at a time. I used only one bottle of Paine's Celery Compound, and was perfectly cured. I can now jump around, and feel as lively as a boy." FRANK CANOZ, Eureka, Nevada.

LONG LIFE.

There is nothing in the world more generally desired than long life, yet the majority of people put off caring for their health—not because they are really careless, but because we live our lives at such a pace we have not time to give the subject sufficient thought until we receive a reminder in the shape of a severe illness.

Then, too, we are constantly bewildered by the various schools of medicine, and the physicians who represent them, and often blunder in our choice of a doctor.

If people only knew that the very best health-keeper, life-preserver and disease preventer that has yet been discovered, is simmered down into a concentrated and very palatable form in the shape of New Style Pleasant Taste Vinegar Bitters, they would not hesitate a moment to try it.

But they do not know. How can they know, when so many not only worthless, but positively injurious drugs are constantly flooding the market under various names and guises, that the New Style Vinegar Bitters is as bad as any of them?

They do not know, of course, unless they have the courage to try the New Style. It straightens out a tangled-up system in a very short while, and those who buy it once buy it always.

Why don't you try it, reader? It is sent out by a responsible house, and is exactly as represented. It costs but a dollar for a very large bottle. Try it once and you will never be so glad of anything in your life. Your druggist may not have it, but he will order it for you. Be sure it says New Style Pleasant Taste on carton and bottle before you take it. Try it, and you will feel happier than if you had found a gold mine, for it really is a mine—of health.

HANDLING DYNAMITE.

(Continued From Second Page.)

somewhere in southern Indiana. Jennings' grave is no more respected than Governor Biggar's resting place at Fort Wayne. Until the city made a park out of it, the old graveyard in which the ex-governor was buried was used as a cow pasture. There was nothing to mark the grave but a slab laid over it, with this simple inscription: "Samuel Bigger, ex-Governor of Indiana." The grave was shaded by a large sycamore tree, which made the grave of a Hoosier governor very attractive for the Fort Wayne cows during the summer days. When the city turned the burial ground into a park two years years ago, a wire fence was placed around the grave of Bigger and it remains in that condition this day.

Will be Thoroughly Investigated.

Before the state house is accepted from the commissioners the charges that the plumbing in the building is defective will be investigated. The result of the inquiry was foreshadowed in the report which gave an investigating committee wide power to act.

Senator Barrett wanted to know what was contemplated in the request that the committee "be given full power to act." The words might be interpreted as meaning more than the senate was willing they should. He thought it would be giving very broad power, but he had no idea that it would be abused by the committee.

A Treasury Investigation.

Mr. Wilson introduced a resolution, with a whereas, stating that there had been rumors during the years 1887 and 1888 affecting the state treasury and the treasurer, and, in consequence, it was important that there should be an investigation into the affairs of the office. The resolution provided that a committee of five should be appointed to conduct the investigation. The resolution was adopted.

PLEASANT REMEMBRANCE.

A Fort Wayne Lady is Appreciated by Her Pupils.

The Albion *Democrat* has this pleasant reference to Miss Jennie Sedgwick, a graduate of St. Augustine's Academy, in this city, and formerly a resident here:

"Miss Jennie Sedgwick, teacher in room 3, of the Albion school, was most pleasantly surprised on Thursday evening last, by most of the pupils under her charge, who unexpectedly visited her in a body, with many offerings—presents both beautiful and useful—testimonials of the respect and affection inspired by their association as teacher and pupils. It was needless to enlarge upon the genuine pleasure to a conscientious teacher of such incidents, and the mutual inspiration to greater effort and purpose, arising therefrom."

A New Railway Project.

ANGOLA, Ind., Jan. 24.—There is a project on foot which, if consummated, will give Angola another railroad. A line is proposed from Columbus, Ohio, by way of Lima, Defiance and Bryan, Ohio, through Steuben county from southeast to northwest, taking in Angola and Orland, to Sturgis, Mich., there to connect with another line to South Haven, on Lake Michigan. The proposed road is said to be under contract from Columbus to Defiance, O.

Salt Rheum

Hood's Sarsaparilla has wonderful power over this disease. It purifies the blood and expels the humor, and the skin heals without a scar. Send for book containing many statements of cures, to C. I. Hood & Co., Apothecaries, Lowell, Mass.

Lafayette Will Have Gas.

LAFAYETTE, Ind., Jan. 24.—The books of the Citizens' Natural Gas company, of this city, were closed yesterday with a capital stock of nearly $400,000. The company has received an ordinance and will pipe from Kempton, a distance of thirty-six miles; commencing operations in the spring.

Ayer's Sarsaparilla is prescribed and recommended by eminent physicians, and is taken with perfect safety by old and young. It selcansing and vitalizing effects are sure and speedy, and it is universally conceded to be most effective of all blood purifiers.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

The Toledo Hero Operated the Bad Debt Collecting Agency Here.

THE SENTINEL yesterday devoted much space to airing the depraved practices of one Smith. The fellow is none other than the Smith who operated the "Bad Debt Collecting Agency" here. The man had an office over Klinkenburg & Detzer's drug store and roomed with his wife at Miss Ellen Finn's boarding house, on West Washington street.

He drove a wagon about town with the huge words, "Bad Debts Collected," on either side. He got into a controversy with some business men and when closely pressed left the city.

It is said that while here he encouraged his wife's shame and was dead to all sense of honor.

A SERIOUS CHARGE.

A Young Man at Huntington Exonerates From a Fort Wayne Firm.

The Huntington *Herald* says:

"An affidavit is filed with 'Squire John by S. R. Alden, of Fort Wayne, in behalf of the state against Joseph Z. Scott, of this city, on the charge of embezzlement.

"The defendant, it appears, as the attorney for a business firm in Fort Wayne, named Cooper & Conard, collected nearly $600 of money due the firm and failed to account for the same. His arrest was made to-day and the case is to be heard before 'Squire William John."

POND'S EXTRACT.

LETTERS FROM THE GOVERNORS.

It is a well-known fact that POND'S EXTRACT is used and recommended by more distinguished people than any preparation or remedy extant.

It is used in the household of the President as well as that of the humblest citizen; by members of the army and the navy, the Bar and the Bench, the pulpit and the press—all ranks and classes of people. To further illustrate this fact we append a few of the more recent letters from Governors of different States:

To Assist Nature

In restoring diseased or wasted tissue is all that any medicine can do. In pulmonary affections, such as Colds, Bronchitis, and Consumption, the mucous membrane first becomes inflamed, then accumulations form in the air-cells of the lungs, followed by tubercles, and, finally, destruction of the tissue. It is plain, therefore, that, until the hacking cough is relieved, the bronchial tubes can have no opportunity to heal. Ayer's Cherry Pectoral

Soothes and Heals

the inflamed membrane, arrests the wasting process, and leaves no injurious results. This is why it is more highly esteemed than any other pulmonary specific.

L. D. Bixby, of Bartonsville, Vt., writes: "Four years ago I took a severe cold, which was followed by a terrible cough. I was very sick, and confined to my bed about four months. My physician finally said I was in consumption, and that he could not help me. One of my neighbors advised me to try Ayer's Cherry Pectoral. I did so, and before I had taken half a bottle was able to go out. By the time I had finished the bottle I was well, and have remained so ever since."

Alonzo P. Daggett, of Smyrna Mills, Me., writes: "Six years ago, I was a traveling salesman, and at that time was suffering with

Lung Trouble.

For months I was unable to rest nights. I could seldom lie down, had frequent choking spells, and was often compelled to seek the open air for relief. I was induced to try Ayer's Cherry Pectoral, which helped me. Its continued use has entirely cured me, and, I believe, saved my life."

"For years I have had a chest trouble amounting to nothing short of consumption.
